IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 2361) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2006, and for other purposes, with Mrs. CAPITO (Acting Chairman) in the chair.

The Clerk read the title of the bill.

The Acting CHAIRMAN. Pursuant to the rule, the bill is considered as having been read the first time.

Under the rule, the gentleman from North Carolina (Mr. TAYLOR) and the gentleman from Washington (Mr. DICKS) each will control 30 minutes.

The Chair recognizes the gentleman from North Carolina (Mr. TAYLOR).

Mr. TAYLOR of North Carolina. Madam Chairman, I yield myself such time as I may consume.

Madam Chairman, today we present for consideration by the House the Interior, Environment and Related Agencies fiscal year 2006 Appropriations bill as approved by the House Committee on Appropriations.

The bill provides a total of \$26.2 billion in funding for programs for the Department of the Interior, Environmental Protection Agency, Forest Service, Indian Health Service, the Smithsonian Institution, and several other environmental and cultural agencies and commissions.

□ 1215

The bill is \$823 million below the fiscal year 2005 level, and \$435 million above the administration budget request.

This is a balanced, bipartisan bill. It provides significant increases for our national parks, Indian schools, hospitals and clinics, wildfire programs; forest health is a high priority, and the Healthy Forest Initiative is fully funded.

The Payments in Lieu of Taxes program has a healthy increase of \$30 million above the budget request, and more than \$3 million above the 2005 level. Despite our very tight allocation, the Committee believes it is important to provide this increased funding for PILT.

There is an increase of \$64 million for operations of our National Park System, including a \$30 million increase specifically designed for individual units of the National Park Service. This targeted park base increase will benefit all of our parks.

The bill also restores critical funding for science programs, historic preservation programs, National Forest Systems programs, and Save America's Treasures grants. Finally, we have restored critical environmental education, research and rural water programs in the Environmental Protection Agency, and provided some limited increases for initiatives proposed in the budget request, including Superfund, homeland security, school bus retrofits, the Clean Diesel Program, Methane to Markets Initiative, and the Brownfields Program.

The budget request for EPA, while substantially below last year's level and proposed increases in that budget request, were funded by elimination of many critical mission essential programs.

We heard from nearly every Member of the House asking that we provide funding for EPA programs that were eliminated or reduced in the budget. The program restoration and increases for the various programs and agencies in this bill are offset by the decreases in land acquisition, construction, and State grant programs, and by lowering the amount provided for the increases proposed in the budget request.

This is a balanced bill. It is within the 302(b) allocation for budget authority and outlays. It provides the needed funding to keep the agencies in the bill operating at a reasonable level.

It does not provide a lot of funding for new initiatives. The choices made by the Committee were tough and fair and responsible. I urge all of my colleagues to support the bill.

At this point, I would like to ask that a table detailing the accounts in the bill be inserted in the RECORD.
